## PRODUCT DATA      RELEASE AGENT

### ARA-2 ASPHALT RELEASE AGENT

- PRODUCT DESCRIPTION:** Seaboard Asphalt Release Agent is a spray foam for application into the truck bodies for release and asphalt hot mix.
- BASIC USES:** Seaboard Asphalt Release Agent has a standard dilution rate of 40 parts water to one part ARA-2 and dispensed through proportioned valve using either water pressure only or air and water pressure.
- LIMITATIONS:** Freeze/thaw stability is 15-20 cycles.
- APPLICATION:** Seaboard Asphalt Release Agent is applied with the dispensing unit at yield of 11,000-15,000 tons of asphalt per drum of ARA-2 using water pressure dispensing system. The yield using air and water dispensing system is 15,000-26,000 tons of asphalt per drum. This product provides a cost effective environmentally safe and non-toxic replacement for diesel fuel.
