EF-7 Clippership Non-Fibred Emulsion Coating
Product Data Sheet

Product Description:
Clippership Non-Fibred Emulsion Coating is designed for ASTM D1227, Type III specification. This material is an asphalt emulsion with selected colloids to formulate a dampproofing coating.

Basic Uses:
Clippership Non-Fibred Emulsion Coating is used as a protective coating for a variety of applications on asphalt, metal, wood, and masonry surfaces.

Storage and Limitations:
- Do not allow material to freeze.
- Do not thin material.

Application:
Clippership Non-Fibred Emulsion Coating must be applied to a dry or damp surface free of foreign matter. This material should remain dry until it has cured. This material can be applied by brush, squeegee, or spray equipment. This product can also be applied to “green” concrete.

Coverage:
40 Square Feet per Gallon.

Composition and Safety:
For complete safety information please review the Safety Data Sheet for this product.
